I hired Apex Packers and Movers Mumbai for shifting my house from New Jersey to India. The moving process took just 2 days. Quite impressive! Moreover, the movers were very friendly and courteous. They offered me a fantastic rate with no hidden cost, which I found hard to find elsewhere. Overall, I'm really happy with the service provided by this company and recommend it to everyone!

Apex Packers was really responsive to all our queries and always available for additional guidance. The team helped us a lot in planning out the move and giving us guidance on what kind of things to do first and what are the most important details that should be covered...The team was also very helpful with all our queries including given tips on relevant laws.

This was my first shifting I was worried about my household things I got to know about standard movers and packers through Google search and I was delighted with the services of the company they were polite and professional and the shifting went smooth and most importantly the delicate things were handled very carefully.
